# Introduction

The sacred codes of Agesta are a healing and manifestation tool that has been given to us by Divinity through the teacher José Gabriel Uribe, better known as Agesta. These codes are numerical sequences that contain the vibration of different light beings, energies, situations or purposes that we can invoke to receive their help and benefit.

Kind regards,

## WHO IS AGESTA?

Agesta is the spiritual name of José Gabriel Uribe, a Colombian who since he was a child had contact with angels and ascended masters. Throughout his life, he has received messages and instructions from these beings of light, who have taught him to use sacred codes as a form of communication and connection with them.

Agesta has shared these codes with the world through his books, audios and social networks, in order to help humanity raise their consciousness and improve their quality of life.

## What are the sacred codes of Agesta?

The sacred codes of Agesta are numbers that represent the essence of different aspects of reality, such as angels, archangels, ascended masters, cosmic beings, planets, animals, plants, minerals, diseases, situations, etc. Each code has a specific function and vibrational frequency that aligns with our purpose and need.

### HOW DO THEY WORK?

Agesta's sacred codes work through the law of attraction, which states that everything we think, feel and say manifests in our reality. By using these codes, we are emitting a signal to the universe that attracts to us what we are requesting. The codes also work by the law of synchronicity, which implies that everything that happens has a meaning and a connection with our divine plan. By using these codes, we are synchronizing our will with the higher will, and thus we can experience miracles and blessings in our lives.

# HOW TO ACTIVATE THE SACRED CODES OF AGESTA?

To activate the sacred codes of Agesta, it is recommended to follow the following steps:

1. Choose the code or codes you want to use, according to the purpose or need you have. You can consult the list of codes that Agesta has published, or ask intuition or beings of light to tell us the appropriate code for our situation.

2. Find a quiet and comfortable place, where you can be relaxed and focused. You can play soft music, incense, candles, crystals, or whatever you prefer to create a sacred atmosphere.

3. Breathe deeply and enter a state of meditation, prayer or contemplation. You can invoke God, angels, ascended masters, or whatever beings of light you want, to accompany us and assist us in the process.

## How to activate the sacred codes of Agesta?

4. Repeat the chosen code or codes 45 times each, either out loud or mentally. You can use a rosary, an abacus, a counter, or whatever you want, to keep track of the repetitions. The code must be spoken with faith, trust and gratitude, feeling that the energy it represents is entering our lives.

5. Finish the exercise by thanking God, the beings of light, and the code or codes used, for their help and presence. You can ask for a signal or confirmation that the code has been activated and that our request has been heard and attended to.
